

# The **MAGIC** of **NEWSPAPERS**

**Community newspapers are where the *magic* happens. Your local newspaper:**

**Provides a space for *discussion***

by enabling readers to make their voices heard.

**Holds *government* accountable**

through coverage of elections, taxes and government meetings.

**Supports *businesses***

through advertising, “shop local” campaigns and news coverage.

**Spreads good *news***

by sharing stories about neighbors doing good deeds, important milestones and the little things in life that matter.

The staff members at your local newspaper are neighbors, friends and volunteers. They share your values and understand your community because it's their community too.
